### Federal Signal Vista—Halogen Models

- Hundreds of models to choose from so your agency's light bar stands out from neighboring departments
- Incredibly bright and reliable halogen rotators
- Rotators are offset to give more effective 360 degree warning power at critical traffic intersections
- Mix or Match rotator types, choosing speed (95, 120, 175 FPM) and full or quarter-filter options
- Built-in options include Signalmaster, speaker, takedowns, alleys, spotlights, flashers and more
- Available in all 5 standard safety color combinations. Include lengths from 36, 44, 53, 62, and 71 inches

#### MODELS

- X132H225A—44" (2) 120 FPM Rots, (3)175 FPM rots, 1 pair Alleys, 1 pair Takedowns, 2 Front Flashers, 2 Rear Flashers, 2 Vista Rays (Halogen Intersection Sweeps)
- X132H206CB-003—44" (2) 95 FPM Rotators (2) 175 FPM Rots, (1) Center Traffic Clearing Light, 1 pair alleys, 1 pair Takedowns, 4 Front and Rear Directional Strobes, 2 Vista Rays (Halogen Intersection Sweeps)

### Federal Signal Streethawk

- The original two-level light bar with full 360 degree warning power
- Most effective, most affordable warning available in a conventional lightbar
- Unobstructed primary warning on top is separated from secondary auxiliary lights on lower deck
- Extremely bright 72,000 candela halogen rotators are available in 95, 120 or 175 FPM
- Additional options include oscillators, flashers, alleys, takedowns, cascade mirrors, speaker, intersection sweeps
- Available in all 5 safety colors and in lengths of 35, 40, 48, 52 and 65 inches

#### MODELS

- SHL4814—48" 5 Rotators, mirrors, 2 Front Halogen Flashers, 4 Rear Halogen Flashers, 1 Pair Alleys, 1 Pair takedowns.
- SHL4815—same as above bar with additional intersection sweeps

**SHL4814 \$779.00**  
**SHL4815 \$899.00**

**Your choice of vehicle hooks included in price.**  
**Please specify colors when ordering.**

### Federal Signal Jetstream/JetStrobe

- Features include 50 watt halogen rotators or double axis Fresnel strobe heads featuring Quad flash engineering to give longer effective retinal "dwell time"
- Versatile features include Halogen, Strobe, and combination models including auxiliary features like alleys, takedowns, flashers, brake/ tail/turn, steady burn, front cut off, speaker, and the Meteor traffic clearing light
- Available in all 5 safety colors and in lengths of 35, 40, 48, 52, and 65 inches Popular Models
- JSL4814—48" 4 Rotators, Center traffic clearing light, 1 pair alleys, 1 pair takedowns, 2 front and rear flashers
- JSL4815—same as above bar substituting rotator for TCL in center section
- SJL4810—48" 6 Strobes, 1 pair takedowns, 1 pair alleys, 2 Front and Rear Flashers
- SJL4815—48" 10 Strobes, 1 takedown, 1 pair alleys, 2 Front and Rear flashers

**JSL4814 \$ 999.00**  
**JSL4815 \$ 975.00**  
**SJL4810 \$1125.00**  
**SJL4815 \$1233.00**

LightBars in Stock!**

### Whelen Ultra Edge

- Classic Edge profile, with extra two inch wider stance in a 4, 6 or 8 strobe models. High Current (HC) or Low Current (LC) models available
- Duplex modules front, rear or sides allow greater versatility with customization.
- Low Current Relay style reduces amp draw from switches and optimizes control features
- Options including strobes, halogen, and LED snap in modules reduce labor time. Duplex combination units allow you to customize to your exact need with ease and power
- Powered by up to three power supplies, the output wattage is brighter and they mounted the power supplies in the ends instead of the center for easy upgrade or service.
- Standard complete internal wiring harness makes it easy to add options as your needs change
- Available in all 5 safety colors and in standard lengths of 48 and 52 inches

#### MODELS

-9U248000—48 inch 4 strobes (LC)

-9U368000—48 inch 6 strobes (LC), 1 pair takedowns, 1 pair alleys, 2 front and rear halogen flashers

### Whelen 9400 Series Edge

- The cornerstone of Strobe lightbars the Classic Edge 9000 series light bar is versatile and powerful
- Upgrades like takedowns, halogen flashers, Traffic Advisor, Pierce Alert, Piercer II, & LED Messenger, make the Edge extremely customizable
- Available with 4, 6 or 8 strobes and with or without a relay matrix. Also available in standard sizes of 48 and 52 inches

#### MODELS

-9M148000—49 inch 4 strobes, 2 front and rear halogen flashers

-9M268000—49 inch 6 strobes, 1 pair takedowns, 1 pair alleys

-9M288000—49 inch 8 strobes, 1 pair takedowns, 1 pair alleys

### Whelen Insertable Strobes

- Hide-away are the smallest flange or grommet style strobe lamp assembly
- Easy to install on flat or curved surfaces. Mounts into a 1 inch hole on the rear of any composite style headlight, corner light, or taillight assembly
- Each assembly includes 15 ft shielded cable with AMP connector
- Available in 6 safety colors—Amber, Blue, Clear, Green, Red, or Violet

#### MODELS

- HA238—Flange mount Strobe tube with 15 ft cable
- HA239C—Grommet mount with 15 ft cable (available in clear only)

### Nova Insertable Strobes

- Small flange or grommet style strobe lamp assembly
- Easy to install on flat or curved surfaces. Mounts into a 1 inch hole on the rear of any composite style headlight, corner light, or taillight assembly
- Each assembly includes 15 ft shielded cable with AMP connector
- Available in 6 safety colors—Amber, Blue, Clear, Green, Red, or Violet

#### MODELS

- HAFKIT-C—Flange mount clear strobe tube with 15 ft cable
  - HAFKIT-\* - Flange mount colored strobe tube with 15 ft cable
  - HAPKIT-C—Pop-in grommet style clear strobe tube with 15 ft cable
  - HAPKIT-\* - Pop-in grommet style colored strobe tube with 15 ft cable
- Choice of Amber, Blue, Green, Red or Violet

### Whelen GRL-STR

- Smallest Remote strobe head with changeable lenses available
- Made from a polycarbonate plastic the GRL stands up under harsh conditions

- Includes 15 ft shielded strobe cables

- Available in Amber, Blue, Clear, Green, Red, Violet and Split Combinations

MODELS —Sold Individually, NOT in pairs

- GRLSTR\*1—Grill strobe with 15 ft cables
- GRLSTR#1—Grill strobe with 15 ft cables and split lens
- Also available in Halogen model

LINEAR MT	\$140.00 / pair
Please specify color when ordering	

### Nova Microthin—Strobe

- Thin, rectangular, relampable directional strobe with bail bracket for versatile mounting and easy maintenance.
  - Only 1.5 inches high, perfect for grill or deck mounting
  - Composite-based single screw lamp design
  - Shielded 15 ft strobe cable attached with industry standard AMP connector
  - Options include enclosed casing for indoor or outdoor use and is available in Amber, Blue, Clear, Green or Red
- MODEL
- LINEAR MT—Grill / Deck strobe with 15 ft cable—Pair

### Federal Signal GS-1

- Versatile, durable and compact these grille lights feature housings constructed of rugged polycarbonate
- Adjustable mounting brackets that swivel 170 degree vertically and 360 degree horizontally
- Comes standard with 4 ft cable, must purchase longer lengths separately
- Available in A/B/C/G/R

MODELS —Sold individually, NOT in pairs

- GS-1—Pedestal mount strobe, 4 foot cable
  - SPC-16— 16 ft shielded strobe cable
- Also available in Halogen model

GS GS-1	\$59.00
SPC SPC-16	\$19.00

### Federal Signal GS-2

- Versatile, durable and compact these grille lights feature housings constructed of rugged polycarbonate
  - Linear strobe and parabolic reflector produces 120 degrees of coverage, more than 180 when used in pairs
  - Adjustable mounting brackets that swivel 170 degree vertically and 360 degree horizontally
  - Comes standard with 4 ft cable, must purchase longer lengths separately
  - Available in Amber, Blue, Clear, Green & Red
- MODELS—Sold individually, NOT in pairs
- GS-2—Pedestal mount linear strobe, with 4 ft cable
  - SPC-16—16 ft shielded strobe cable

### Nova Linear Par 36

- Utilizes a formed Linear tube to focus the brilliant strobe burst exactly where it's needed. No light is wasted above and below the target warning area
  - The contour of the parabolic reflector provides an extremely wide-angle strobe
  - Comes standard with a rubber pedestal housing or surface mount with chrome or black trim kit and 15 ft of shielded strobe cable and standard AMP connector
  - Available in Amber, Blue, Clear and Red
- MODELS —Sold individually NOT in pairs
- LIN36RUB—Linear 36 Strobe w/ rubber pedestal housing and 15 ft cable
  - LIN36FBK—Linear 36 strobe with black trimmed surface mount and 15 ft cable
  - LIN36FCH—same as above with chrome surface mount kit

LIN36RUB	\$57.00
LIN36FBK	\$57.00
LIN36FCH	\$60.00

**Code 3 AS Series**

- Grill and deck lights are engineered for either exterior or interior use, mounting in the grill, over or under the bumper, or inside the rear deck
  - Colors can be changed in a snap, for single or multicolor signals
  - Powered by a long lasting Helical strobe tube, lamp replacement is standardized.
  - Comes standard with 15 ft cable and L-bracket mounts and is available in Amber, Blue, Clear, Green and Red
- MODELS (Sold in Pairs)
- AS-1S—Single Strobe units with 15 ft cable
  - AS-2S—Double strobe units with 15 ft cables
  - Also available in Halogen models.

MICROPAC 404MF	\$107.00
MICROPAC 504MF	\$117.00

**Nova MICROPAC Series**

- 50/40 watt 4 outlet economical heavy duty strobe power supply
  - Capable of powering two or four heads
  - Quad Flash Patterns
  - Rock solid Five year warranty
  - Other features include EMI/RFI filtering, over-voltage/absent flashtube protection, reverse polarity protection & multi-voltage input standard 10-30 V DC
- MODELS
- MICROPAC 404MF—40 watt, 4 outlet
  - MICROPAC 504MF—50 watt, 4 outlet
- Great and economical way when you want to run just two remote strobe heads

**Nova XPAK Series**

- Available with 90/80/60 watts output power in a 4 outlet power supply
  - Flash patterns include Mega Flash, Double Flash, Quad Flash and Quintuple Flash
  - Capable of switching 2 or 4 heads
  - Rock solid 5 year warranty
  - Other features include EMI/RFI filtering, over-voltage/absent flashtube protection, reverse polarity protection and multi-voltage input standard 10-30 VDC
- MODELS

<b>ULTRAPAK 18512</b>	<b>\$323.00</b>

**Whelen CSP Series**

- 6 outlet power supply available in 60 or 90 watts
- 9 flash patterns available—Comet Flash, Triple Flash, Double Flash, Single Flash, Action Flash, Modu-Flash, Micro-Burst 2, Micro-Burst 3, and Long Burst
- Available with 2 x 2 x 2 switching, and operates 2, 4, or 6 outlets
- Factory 2 year warranty
- Other features include RFI filtering, reverse polarity protection, and multi-voltage input standard 12-25 VDC

**Models**

- SPS660A—6 outlet, 60 watt, 9 flash patterns
- SPS690—6 outlet, 90 watt, 9 flash patterns

<b>CSP660A</b>	<b>\$199.00</b>
<b>CSP690</b>	<b>\$275.00</b>

**Nova RPM Series**

- 90/80/60 watt 4 and 6 head random flash power supply
- 11 randomly selected flash patterns—Single, Twin Single, Double, Twin Double, Triple, Twin Triple, Quadruple, Quintuple, Mega, Twin Mega, Triple Mega Blast
- Head Mapping—The RPM fires all possible head pairing for maximum light movement
- Random Pattern Selection—Choose random level repeat from after every 1 to 4 times, or set to Chaos mode for the fastest random power
- Rock solid 5 year warranty
- Other features include EMI/RFI filtering, Over-voltage / absent flashtube protection, reverse polarity protection & Multi-voltage input standard 10-30 VDC

**MODELS**

- RPM4-60/80/90—60, 80, or 90 watt, 4 outlet
- Random power supply
- RPM6-60/80/90—60, 80, or 90 watt, 6 outlet
- Random power supply

<b>RPM4-60</b>	<b>\$153.00</b>

<b>RPM6-90</b>	<b>\$193.00</b>

**Whelen UPS-64LX**

- 75 watt , 4 outlet, multiple flash patterns
- Flash patterns include, Comet Flash, Double Flash, Action Flash, and Rapid Rate
- Universal regulated power supply allows you to operate multiple style strobe heads with different lengths of cable and still have an equal power distribution between the big heads and the small heads
- Capable of switching two or four heads
- Rock solid 5 year warranty
- Other features include EMI/RFI filtering, over-voltage/absent flashtube protection, reverse polarity protection and multi-voltage input standard 12-24 V DC

**MODEL**

- UPS-64LX—4 outlet, 75 watt regulated power supply, 4 flash pattern
- Item shown is UPS-64LX

<b>UPS-64LX</b>	<b>\$263.00</b>
-----------------	-----------------

**UPS-158****\$447.00****Whelen UPS-158**

- 150 watt, 8 outlet, multiple flash patterns
- Flash patterns include, Comet Flash, Double Flash, Action Flash, & Rapid Rate
- Universal regulated power supply allows you to operate multiple style strobe heads with different lengths of cable and still have an equal power distribution between the big heads and the small heads
- Capable of switching 2 x 2 plus 2 x 2 stereo switching
- Rock solid 2 year warranty
- Other features include EMI/RFI filtering, over-voltage/absent flashtube protection, reverse polarity protection & multi-voltage input standard 12-24 VDC

**MODEL**

- UPS-158—8 outlet, 150 watt regulated power supply, 4 flash patterns

## Nova Standard Switches

-This standard line-up of switches specifically for Nova Strobe power supplies and strobe beacons  
All switches come with or without a pre-wired 15 ft harness

### MODELS

- Switch1—Single, lighted, on/off switch with bracket—General Purpose
- Switch1WH—same as above with wire harness
- Switch2—Double, lighted, on/off and hi/low power switches with bracket—For XPAK, Micro-Pak, and HPS Series
- Switch2WH—same as above with wire harness
- Switch3—Triple, lighted, 2 head control on/off switches, hi/lo switch—For XPAK, Micro-Pak, and HPS Series
- Switch3WH—Same as above with wire harness
- Switch6—Triple, lighted, 2 head control on/off switches, hi/lo switch—For Superpak series
- Switch6WH—Same as above with wire harness

## Nova RPM Switches

-Standard and Rotary style switching that enable the operator to choose strobes and to select Random level, Chaos Mode, Head Mapping and selective switching features. All switches are pre-wired for easy installation

### MODELS

- Switch RPM4S—2x2 on/off control switches and hi/lo switch for 4 outlet RPM packs
- Switch RPM4R—2x2 on/off control, hi/lo and Chaos mode switches with rotary switch for Random Level, for 4 outlet RPM packs
- Switch RPM6S—Same as 4S, with 4x2 switching, for the RPM 6 pack
- Switch RPM6R—Same as 6R, with 4 x 2 switching, for RPM 6 pack

Switch RPM4S	\$29.00
Switch RPM4R	\$57.00
Switch RPM6S	\$29.00
Switch RPM6R	\$57.00

## Nova Rotary Switches

-The full function Rotary switch panel for every power supply in the Nova line. These Rotary switches are pre-wired, easy to install and provide a simple means of controlling all the features of your Nova power supply

### MODELS

- SwitchRota4—On/off, hi/lo switch and flash pattern dial for the X-PAK and Micro-PAK Series
- SwitchRota5—2x2x2 control on/off switch and pattern dial with hi/lo position for Superpak Series
- SwitchRota6—2x4 control on/off switch and pattern dial with hi/lo position for Superpak Series
- SwitchRota8—On/off, hi/lo switch and flash pattern dial for Doublex-PAK
- SwitchRota9—4x4 control switches and pattern dial for Ultra-PAK 1858
- SwitchRota10—4x4x2 control switches and pattern dial for Ultra-PAK 18510
- SwitchRota12—4x4x4 control switches and pattern dial for Ultra-PAK 18512

**Nova X-PAK Kits**

-90/80/60 Watt, 4 outlet, multi-flash strobe kits. Each kit includes 1 power supply, four 15 ft. shielded strobe cables, and 4 Hide-a-flash strobe lamps.

-The X-PAK power supply features flash patterns Mega Flash (Rapid Single), Double Flash, Quad Flash and Quintuple Flash. It also features a solid 5 year factory warranty

-Tubes are available in A, B, C, G, R and V and have a 1 year warranty

-2 x 2 switching, switch 2 or 4 heads

-Other features EMI/RFI filtering, Reverse polarity protection, over-voltage/absent flashtube protection, multi-voltage input standard 10-30 V DC

**MODELS**

-SYS-X4—60 watt, 4 head system, 4 clear tubes, 4 cables

-SYS-X804—80 watt, 4 outlet system, 4 clear tubes, 4 cables

-SYS-X904—90 watt, 4 outlet system, 4 clear tubes, 4 cables

Colored tubes can be substituted for clear for additional cost

**Nova Superpak Kits**

-90/80/60 Watt, 4 outlet, Multi-flash Strobe kits. Each kit includes 1 power supply, 4 15 ft. shielded strobe cables, and 4 Hide-a-flash strobe lamps.

-The X-Pak power supply features flash patterns Mega Flash (Rapid Single), Double Flash, Quad Flash and Quintuple Flash. It also features a solid 5 year factory warranty

-Tubes are available in A, B, C, G, R and V and have a 1 year warranty

-4 x 2 switching, switch four or six heads

-Other features include EMI/RFI filtering, reverse polarity protection, over-voltage/absent flashtube protection, multi-voltage input standard 10-30 V DC

**MODELS**
