

### Federal Signal Stinger Spikes

- The Stinger Spike System is the #1 choice of Law Enforcement professionals worldwide. The Stinger system comes ready to use. Simply pull or slide the unit across the road. It will automatically open and extend. There is no flying debris to dodge or clean up
- With it's automatic angle adjustment it easily proves to be the best system and will work on all different tire diameters and treads. It can be deployed and retrieved so fast that it succeeds in more traffic situations where others fail. With it's long lengths it is hard for suspects to drive around the system when deployed
- The Stinger is of highest quality. It will uncommonly terminate twenty to thirty or more chases without being damaged After simple replacement of the spikes it's ready to be used again and again. The quick and easy system eliminates down time and is never out of service
- The Stinger base carries a lifetime guarantee
- Also available are "pursuit prevention" device like the Checkpoint Charlie & Rat trap
- The Stinger system is available in different lengths and comes with a carry case and refill kit for on scene servicing
